The Leader in Ergonomic Solutions

# Access™

Workplace accessories to organize any workstation

## Access™

Access™ completes the workstation, by taking all frequently used items, such as paper documents, binders and writing utensils, and placing them within arm's reach.

Access™ workflow accessories assist in achieving ergonomic recommendations in the office. By freeing up valuable desk space and keeping items within easy reach, users are more productive.

Access™ slatwalls can be panel mounted into most system furniture and is less expensive than major manufacturers' workflow accessories, yet equally functional.

*"Phone trays, paper trays, and mail bins have had success with slat wall systems, and all help to keep the workstation organized, which can translate to higher productivity."*

*(Belk, 2004)*
